Profile

Experienced Angular Developer with 3+ years of expertise in building responsive, dynamic, and high-performance web applications using Angular, Angular Material, NgRx, ChartJS and Ant Design. Skilled in developing reusable components, managing complex state with NgRx, and ensuring seamless integration with RESTful APIs. Committed to continuous learning and driving UI excellence within collaborative Scrum teams.

Education

Bachelor of Engineering (B.E) from **Savitribai Phule Pune University**

8.36 | 2018-2021 | Pune, India

Diploma in Engineering from **MSBTE**

71.39 % | 2015-2018 | Mumbai, India

SSC (10th) from **Maharashtra State Board**

81.60% | 2014-2015 | Pune, India

Skills

Frontend: Angular 19, Angular Material UI, Bootstrap, ChartJS, Apex Chart, Date Picker, NgRx, RxJS, HTML, CSS / SCSS, Angular Ant-Design, JavaScript & Typescript

Backend: Core JAVA, spring boot

Database: Oracle PL / MySQL & MongoDB

Deployment: CICD Jenkins

Tools / Software: VS Code, Eclipse mars, Eclipse Neon, Spring tool developer, POSTMAN, PL / SQL Developer, Tortoise Git, Git Bash, Putty, WinSCP, Jira, Jile, CICD pipelines, SonarLink, SAST Portal, Katlon Studio, PAM & MySQL workbench

Professional Experience

Frontend Angular Developer

March 2022 - present

TATA Consultancy Services Pvt. Ltd

Mumbai, Maharashtra, India

Project: Incident Management Tool

Domain: Security and Privacy

- Developed and maintained scalable and responsive front-end applications using the **Angular (up to v19)**, with a strong focus on delivering seamless user experiences across **mobile devices, tablets, and desktops**.
- Implemented user interfaces using **Angular Material components** and **reusable component** such as Dialogs, Dropdowns, Toggles, Expansion Panels, Date and Time pickers, Forms, Tabs, and Grids to create user experiences.
- Integrated charts using **Chart.js** and **Apex Charts**, enabling visual analytics and real-time insights for end users.
- Implemented **RxJS** operators for handling asynchronous operations and **NgRx** for state management.
- Expertise in **Reactive Forms** and **Template-driven Forms**, with form **validation** and dynamic form control generation.
- Developed and optimized **lazy-loaded** Angular modules with route guards and Authentication using **Interceptor**.
- Consumed and integrated RESTful backend APIs, collaborated closely with backend teams to define and implement API contracts ensuring seamless data flow and integration.
- Customized **UI/UX** using **CSS/SCSS**, **Angular Material** and **Ant Design**, ensuring responsive and accessible interfaces.
- Stayed updated with the latest Angular releases, tooling, and best practices to continuously improve application quality.
- Familiar with **CI/CD** pipelines using Jenkins for deployments in SIT, UAT, and Production environments. **DAST**, **SAST**, **SonarQube**, **QA** and **vulnerability** suppression for secure releases.
- Participated actively in Agile/Scrum ceremonies, including sprint planning, daily stand-ups, reviews, and retrospectives.
- Used Git version control strategies to support a 40+ developers in, improving version control and reducing merge conflicts.

Project: TATA Trent (Westside, Zudio, Landmark and Utsa)

Domain: Retails and Sales

- Work in **Angular v14** for building dynamic, web single-page applications (SPAs)
- Write and debugged **Java** backend logic for new requirement, rewrote inefficient code blocks for enhancement and defect, and collaborated with QA teams to test and implement performance improvements aligned with project requirements.
- Designed and optimized complex SQL queries in **Oracle PL/SQL** and **MySQL** to support business logic and API functionality, performed data manipulation tasks including restoration, truncation, alteration, and table creation.
- Utilized **MongoDB** for storing and retrieving binary data such as images and documents
- Deployed WAR/EAR files on WebLogic environments, conducted server health checks, sanity testing, and post-deployment defect triaging to ensure stable releases.
- Developed and executed custom **SQL** queries for reporting and backend processes, streamlined workflows by scripting repetitive database and system operations.
- Used **Git** for version control and collaborative development.

Awards and Achievements

- Certificate of Recognition Q2
- Angular course
- Certificate of Appreciation Q1
- Professional JAVA Developer
- Associate cloud Engineer certification
